

CAREY PARK GOLF COURSE

2020 JUNIOR GOLF CLINICS

Beginning Junior Golf Clinics are designed to teach students the basic fundamentals of golf. These clinics are designed as an entry-level format and no prior experience is necessary, however clinics may also serve as refreshers for junior golfers who have been exposed to some instruction or have played the game before. Junior golfers will be taught the grip, stance, posture, and the basic skills of hitting a golf ball.

Beginning Junior Golf Clinics will be limited to a student/instructor ratio of 8 students to 1 instructor to ensure a quality-teaching environment. **Cost is \$40.00.**

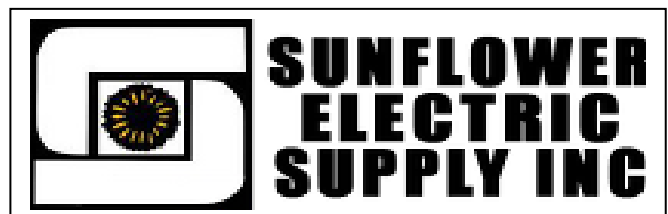

Recommended ages of all Junior Golf Clinic attendees are 7-17 years of age but if junior golfers can take direction and handle a club in a safe manner the age limits can be waived. And while some golf clubs are available for use, **Junior Golf participants are encouraged to bring their own clubs** if they have them.

All Junior Golf sessions are one hour for three days and are taught Tuesday thru Thursday with Friday reserved as make up days in the event of inclement weather. Make up days will not be held for any other reasons. Upon completion of a Junior Golf Clinic students will be given a bucket of balls to continue their advancement. **Minimum clinic participation is two juniors. If less than two participants', juniors will be moved to another session.**

SESSIONS

- #1 Canceled COVID-19
- #2 Canceled COVID-19
